DETAILED ACTION

Change of examiner

1. Note the change of examiner in the present application. The Art Unit number (1624) remains the same.

Response to Amendment

2. In view of the amendments and arguments presented in the response of February 24, 2004, the Section 112 rejections have been overcome.
3. Since the composition and method of use claims are of the same scope as the elected compound claims, these claims are herein rejoined with the elected compound group.
4. The following additional election of species requirement is seen necessary in view of the large number of answers in the STN/CAS structure search. (See also, the prior art structure on page 4, line 10 of the present specification.)

Election/Restrictions

5. Claims 1, 13, 14 and 20 are generic to a plurality of disclosed patentably distinct species comprising the individual compounds of the working examples. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Related structures and art-recognized equivalents will be grouped together for examination purposes. In the absence

of significant prior art, remaining structures will also be grouped therewith. Note particularly, that the A-B aromatic fused ring encompasses heteroaryl rings.

6. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard L. Raymond whose telephone number is (571) 272-0673. The examiner can normally be reached on Monday-Thursday (9:30AM-8:00PM).
